

INTERNATIONAL SYMPOSIUM 2017 ON AGROBIO NANOTECHNOLOGY

will be held October 25-27, 2017 in Saltillo, Coahuila, México

The symposium includes a technical program consisting of several invited papers on current and important issues from well-known leaders in the field. Accepted papers are organized in parallel tracks of oral and poster presentation sessions.

SYMPOSIUM TOPICS:

- Advanced Materials as Nanoparticles
- Antimicrobial Effect of Nanoparticles
- BioNanotechnology
- Environmental Implications of Engineered Nanomaterials
- Green and Sustainable Technologies for Nanoparticles Synthesis
- Nanomaterials from Metallic and Carbon Products
- Nanomaterials as Nanofertilizers
- Nanomaterials as Nanopesticides
- Nanomaterials as Plant Growth Promoters
